I am a Ph.D. student at the Augmented Human Lab (AHLAB), advised by Prof. Suranga Nanayakkara. My research focuses on design input-output wearable devices that enable users to interact with the environment naturally. I like to bring my research beyond the laboratory environment and positively impact people's lives by combining my skills in HCI, Robotics, Machine Learning, and Electronics. I am now looking for full-time positions to start from May 2021.
